

ANGELO FLORES

Software Engineer | Full-Stack, Cloud & AI

(206) 472-4232 | angeloflores88@gmail.com | angelofloresio.vercel.app

PROFESSIONAL SUMMARY

Full-stack software engineer with production experience building and modernizing cloud-native services and customer-facing web capabilities. Skilled in Java, Spring Boot, React, REST APIs, AWS, Kubernetes, Kafka, and machine-learning prototyping. Brings technical depth across search, navigation, microservices, cloud migration, and operational leadership.

TECHNICAL SKILLS

Languages & Frontend: Java, Python, C#, SQL, JavaScript, TypeScript, React, Vue, HTML, CSS

Backend & Cloud: Spring Boot, REST APIs, microservices, AWS (EC2, EKS, Fargate, CloudFormation), Kubernetes, Docker, Kafka, CI/CD

Data & AI: RDS, Redis, NoSQL, TensorFlow, AutoML, Claude, ChatGPT, MCPs

Tools: GitHub, GitLab, Gradle, npm, DataDog, New Relic, Splunk

SOFTWARE ENGINEERING EXPERIENCE

Nordstrom (HQ) | Software Engineer

Apr 2019 - Sep 2022

- Built and maintained Java Spring Boot microservices supporting site search, browsing, navigation, and routing.
- Modernized services from C# .NET Framework and contributed React frontend work during a team rotation.
- Developed RESTful JSON integrations and supported deployments across AWS CloudFormation, EC2, Elastic Beanstalk, EKS, and Fargate.
- Used GitLab for source control, branching, and CI/CD workflows supporting microservice delivery.
- Supported real-time event-driven updates through Kafka producer topics and schema-managed pipelines.

Nordstrom (HQ) | Software Engineer Intern - Computer Vision Platform

Dec 2018 - Apr 2019

- Built a Keras/TensorFlow CNN prototype for shoe-image classification with a target threshold above 70%.
- Created a protobuf-backed image-upload endpoint for an iOS workflow and worked with Vision API and AutoML tooling.

Nordstrom (HQ) | Software Engineer Intern - Product Service

Jun 2018 - Aug 2018

- Delivered REST/JSON product data from Cassandra and worked with Spring Boot controllers, endpoints, and SQS routing.

Integrity Solutions LLC | Software Engineer Contractor

Apr 2018 - Jun 2018

- Co-engineered a migration from on-premises systems to cloud-native services; built a Vue.js CRUD interface with hosted RDS data and WSLCB API integration.

ADDITIONAL EXPERIENCE

Walmart | Digital Coach

Mar 2025 - Aug 2026

- Leveraged website and mobile-app metrics to drive store sales, support digital fulfillment, and enable the Spark Driver program.
- Ramped peak-traffic daily volume from \$35K to \$60K; implemented the IPS program and ran performance reports to improve store metrics.

Walmart | Food & Consumables Coach

Apr 2023 - Mar 2025

- Managed cross-department operations, vendor coordination, reporting, inventory processes, and associate training.

Best Buy | Advanced Repair Agent & Mobile Sales Associate

Dec 2013 - Sep 2020

Provided hands-on hardware and software troubleshooting, customer support, device repair, and wireless sales support.

Fred Meyer (Kroger) | Assistant Food Manager

Aug 2006 - Jan 2011

Progressed from Cashier to Food Supervisor and Assistant Food Manager, leading customer service, staffing, merchandising, and vendor coordination.

EDUCATION

Saint Martin's University | Bachelor of Science, Computer Science - Software Engineering

2017 - 2018

Mathematics minor; completed the university's ABET-aligned software engineering degree pathway.

Olympic College | Associate of Science, Computer Science

2013 - 2016

Completed computer science prerequisites and mathematics coursework.

University of Washington | Computer Science Coursework

2016 - 2017

SELECTED CREDENTIALS & RECOGNITION

AWS and GCP certifications | Coursera: Neural Networks and Deep Learning; Improving Deep Neural Networks | Microsoft Office Specialist Master | Three-time Nordstrom Hackathon contender; 1st Place, Winter 2020
